Experience

Software Development Intern, MCG3D – Remote

January 2026 – March 2026

- Built production web applications in **React** and **TypeScript**, keeping the component architecture scalable and the interface fast and user-centric.
- Integrated frontend features with **Python Flask** backend services over secure **RESTful APIs**, including AI-enabled workflows built on **OpenAI** APIs.
- Deployed and tested applications in **Docker** containers and wrote technical documentation for a remote, cross-functional team.

Electrical Team Member, Metropolitan Aerospace Rocket Society

September 2024 – Present

- Designed and fabricated **PCB** circuits in **Altium** and **KiCad** for a custom **STM32**-based avionics flight computer with GPS telemetry.
- Developed embedded firmware in **C/C++** and **Python**, automating hardware test workflows with scripting.

Education

Toronto Metropolitan University – BEng Computer Engineering

2023 – 2028

Skills

Languages: Python, C/C++, JavaScript, TypeScript, Java, SQL, VHDL **Tools:** Docker, Git, Altium, KiCad, Quartus, SolidWorks, Playwright

Projects

AI Resume & Job-Search Automation Bot | Python

- Designed an LLM-driven resume and cover-letter pipeline with fallback across multiple providers, backed by SQLite storage and a pytest suite.
